

Riley County

Estimated Economic Impact of Agriculture, Food, and Food Processing Sectors 10/8/14

13 agriculture, food, and food processing sectors were analyzed to determine their overall contribution to the Riley County economy.¹

These 13 sectors have a total direct output of approximately \$117 million and support 1,176.1 jobs in Riley County. Running the model for all 13 sectors simultaneously produces the following results:

Agriculture Contribution in Riley Co									
Impact Type ²	Employment	% Employment	Total Value Added ³	% of Gross Regional Product ⁴	Output ⁵	% of Gross Regional Product			
Direct Effect	1,176.1	3%	7,755,433.7	0%	117,126,162.7	5%			
Indirect Effect	113.8	0%	12,439,814.3	1%	19,540,218.2	1%			
Induced Effect	203.7	1%	14,563,842.3	1%	22,635,172.2	1%			
Total Effect	1,493.6	4%	34,759,090.3	1%	159,301,553.2	7%			

As shown in the above table, agriculture, food, and food processing supports 1,493.6 jobs, or 4% of the entire workforce in the county. These industries provide a total economic contribution of approximately \$159 million, roughly 7% of Gross Region Product (GRP). As noted below in the calculation of Gross Regional Product, imports and institutional sales are subtracted. Therefore, counties that import a relatively large amount of goods and services will have a reduced GRP which may lead to agricultural output being greater than GRP.

Another metric used to calculate the importance of sectors in an economy is their value added as a percentage of GRP. Total value added by the 13 agriculture, food, and food processing sectors is approximately \$35 million, or 1% of the GRP. This indicates that personal income, business income, and taxes generated by these sectors account for 1% of the total economy.

¹ Article on building a contribution analysis in IMPLAN that avoids double counting: http://www.implan.com/index.php?option=com_content&view=article&id=660%3A660&catid=253%3AKB33&Itemid=70

² Direct, indirect, and induced effects sum together to estimate the total economic contribution in the state. **Direct effects** capture the contribution from agricultural and food products. **Indirect effects** capture the economic benefit from farms and agricultural businesses purchasing inputs from supporting industries within the state. **Induced effects** capture the benefits created when employees of farms, agricultural businesses, and the supporting industries spend their wages on goods and services within the state.

³ Value added = labor income + indirect business taxes + other property type income.

⁴ GRP = final demand of households + governments expenditures + capital + exports - imports - institutional sales.

⁵ Output = intermediate inputs + value added.

The following tables document the overall summary numbers of the model, top industries affected by employment and output, and a listing of all industries that were analyzed.

In the top ten by employment, Support activities for agriculture and forestry is the top employer in the agriculture industry with 561.6 employees. This table also shows the amount of jobs that are created by the agriculture industry in Riley County.

Description	Total Employment	Total Output
Support activities for agriculture and forestry	561.6	821,359.1
Grain farming	202.3	15,692,359.2
Animal production, except cattle and poultry and eggs	148.3	10,025,432.1
Cattle ranching and farming	130.4	27,241,121.3
Oilseed farming	49.5	10,636,911.8
Food services and drinking places	42.7	2,258,596.4
All other crop farming	30.7	14,938,942.8
Monetary authorities and depository credit intermediation activities	22.3	7,492,536.7
Wholesale trade businesses	20.3	3,862,527.1
Flour milling and malt manufacturing	20.1	27,152,971.0

The Cattle ranching and farming industry directly contributes approximately \$27 million to Riley County's economy. This table also shows how much revenue is generated in other industries by having a strong agriculture industry.

Description	Total Employment	Total Output
Cattle ranching and farming	130.4	27,241,121.3
Flour milling and malt manufacturing	20.1	27,152,971.0
Grain farming	202.3	15,692,359.2
All other crop farming	30.7	14,938,942.8
Oilseed farming	49.5	10,636,911.8
Animal production, except cattle and poultry and eggs	148.3	10,025,432.1
Monetary authorities and depository credit intermediation activities	22.3	7,492,536.7
Imputed rental activity for owner-occupied dwellings	0.0	4,482,687.2
Wholesale trade businesses	20.3	3,862,527.1
Animal (except poultry) slaughtering, rendering, and processing	9.4	2,945,646.2

Below is a summary of all agriculture data with employment levels and output level. These values can tell how many jobs are represented by each agriculture sector and the output they contributed to Riley County's economy.

Oilseed farming 49.53 10.495,115.28 Grain farming 202.31 15.483,710.51 Vegetable and melon farming 19.77 1,422,733.07 Greenhouse, nursery, and floriculture production 2.06 1,270,708.92 All other crop farming 30.68 14,739,797.59 Cattle ranching and farming 130.37 26,877,285.00 Dairy cattle and milk production 9.86 2,630,340.81 Animal production, except cattle and poultry and eggs 148.29 9,891,530.99 Support activities for agriculture and forestry 561.56 788,145.54 Flour milling and malt manufacturing 20.13 27,136,503.22 Alminal (except poultry) slaughtering, rendering, and processing 9.38 2,880,204.44 Bread and bakery product manufacturing 6.77 1,165,953.87 Other industrial machinery manufacturing 3.20 1,020,696.76	Description	Employment	Output

All 105 counties in Kansas have Implan models and agriculture contribution summary. These values do not factor in the retail environment of food sales. Food retail is important, but in order to provide the most accurate picture of what production agricultural and processing contributes to Kansas, the retail sector was omitted.
